GENERAL BOARD DISCUSSION

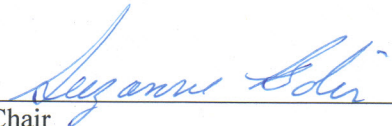

Lawrence is concerned about the intersection at N. 6th East and E. 8th North Street. He said that there have been complaints that there is poor visibility at the two way stop. There have been several close calls and the situation is made worse due to the curve of the road creating blind spots. It is a posted 20 mph zone however people are not going 20 mph causing other drivers to "gun it" to cross the street or turn left. There are also some parked vehicles that create a blind spot for individuals causing people to slowly inch out into the intersection and blocking the northbound lane trying to go southbound. Lawrence will take some pictures of the intersection and gather some stats for the next meeting. Item to be added to next month's agenda.

Albert wanted to again bring attention to the intersection at Sunset Strip and E. 10th North. The traffic on 10th turning left to go south on Sunset tends to encroach on the opposite traffic lane so those turning from Sunset onto 10th don't have a lane to turn into. Albert wanted to bring it up again for consideration with the Street Department and see what options might be available. Gene will approach the same person he did last year to see if they have any new plans.

Gene gave an update on the 18th Street project and Spring paint projects.

ADJOURN

There being no further business to come before the committee, Barbara Turner made a motion to adjourn the meeting. Albert Clement seconded the motion. All in favor and the meeting was adjourned at 6:32 P.M.
